3:30 PM	**Review-Quiz and Wrap-up** Renee Hermiller
3:45 PM	**SESSION ENDS**

Session Information

PPTS Overview and Speakers

How Stakeholders Use Release Data

Overview: This session will review how stakeholders such as industry, PHMSA, and the public use PHMSA and PPTS data. The session will focus on uses such as leak detection methods, emergency response times, and spill volume remediation reporting.

Speakers: Cheryl Trench

PPTS Data vs. PHMSA Data

Overview: This session will describe what is PPTS, who participates in PPTS, and the process that is undertaken to validate data. It will also describe discrepancies in PPTS reporting as compared to PHMSA reporting, such as idle pipe, non-DOT assets

Speakers: Yvette Abraham

Incident Report

Overview: This session will review each section of the incident form and discuss the importance of accurate data. It will also focus on the issues that could arise while reporting.

Speakers: Kirwin Yates and Bukky Adefemi

Walkthrough of an Incident, Live Demo

Overview: This will be an interactive session, where participants use a scenario to see how reporting should be done.

Speakers: Kirwin Yates and Bukky Adefemi

PPTS Overview and Speakers

Infrastructure Report

Overview: This session will review each section of the infrastructure report and describe how the report is used. It will also review how the industry is using the new information from 2009 reports on.

Speakers: Mike Cooper and Robin Cunningham

Things I Wish I Knew Then

Overview: This session will describe common pitfalls and different scenarios that new reporters will commonly face.

Speaker: Renee Hermiller

FAQs, Participant Questions, Responses to Save the Date, Last Questions

Overview: Have even more questions? This is the time to get them answered! Don't leave the workshop with any questions.

Speakers: Chris Pipkin and Renee Hermiller

Review-Quiz and Wrap-up

Overview: Were you paying attention? Test your knowledge with this interactive quiz!

Speakers: Renee Hermiller

Handouts: Last Questions, Infrastructure Form, Incident Form

API-AOPL Data Mining Team Members
